PRESS COOP CHATTER

BY MURRAY.

About 2,500 people saw the two games yesterday. There were more than 2,300 paid admissions in the afternoon and about 400 in the morning.

Oppergelt was out in right field. In the morning game he had the distinction of making all the outs in one inning. He was up nine times, got one hit and fanned twice. His catch in the eighth inning ended the half and closed down what looked to be a rally on the part of the visitors.

Bashang was playing a nice fielding game and in the morning till made a running catch back near the fence.

Some fast work on the part of Shovin'ed Bashang of a hit in the a. m. The Reaper second sacker grabbed the ball over his shoulder while headed for the out-field.

Only four men got to first on Kelly. Two of these walked and the others hit to safe territory. The Benders went through the two tilts without making a boot.

Beall pulled a freak play in the afternoon game. Hartle hit to Zeiser, who threw high to first. "Hal" went up in the air for the ball, grabbed it with his gloved hand and while coming down a sweep toward Hartle and got his man.

Oppergelt was robbed of a hit in the second inning of the second game, when Caveney pulled down his Texas leaguer, headed for left field.

McCull was doing some tall fielding. He started a double play and figured in six other assists.

Shuster got in bad with the Springfield bunch in the afternoon game when he called Bashang safe. At hit to Hoffman, who threw high, forcing Anderson to leap after the ball. Shuster held that Bashang touched first while Anderson was in the air.

Keebler had an unusual record in the last game. He walked three times and was hit twice in five trips to the plate.

Donnelly was hit on the wrist, but it did not seem to interfere with his throwing, for in the ninth he picked up Anderson's hit in front of the plate and pegged the first sacker out at first.

The same teams will clash this afternoon at 3:15 o'clock.

Thursday's game ends the present home stand. The Benders will then be gone for eight days.

WILSON SETS JUNE 14 AS FLAG DAY

President's Proclamation Asks Observance With Patriotic Exercises.

International News Service:

WASHINGTON, May 31.—President Wilson Tuesday issued a formal proclamation setting aside June 14 as Flag day.

The proclamation follows: "By the president of the United States of America. A proclamation: 'My fellow countrymen, many circumstances have recently conspired to turn our thoughts to a critical examination of the conditions of our national life, of the influences which have seemed to threaten to divide us in interest and sympathy of forces within and forces without that seemed likely to draw us away from the happy traditions of united purposes and action of which we have been so proud. It has, therefore, seemed to me fitting that I should call your attention to the approach of the anniversary of the day upon which the flag of the United States was adopted by the congress as the emblem of the union, and to suggest to you that it should this year and in the years to come be given special significance on a day of renewal and reminder, a day upon which we should direct our minds with a special desire to renewal of thoughts of the ideal and principles of which we have sought to make our great government the embodiment.

"I, therefore, suggest and request that throughout the nation, and, if possible, in every community, the 14th day of June be observed as Flag day, with special patriotic exercises, at which means shall be taken to give significant expression to our thoughtful love of America; our comprehension of the great mission of liberty and justice, to which we have devoted ourselves as a people, our pride in the history and our enthusiasm for the political program of the nation, our determination to make it greater and purer with each generation and our resolution to demonstrate to all the world its vital union in sentiment and purpose, accepting only those as true compatriots who feel as we do the compulsion of this supreme allegiance.

"Let us on that day rededicate ourselves to the nation, 'one and inseparable', from which every thought that is not worthy of our fathers' first vote for independence, liberty, and right shall be excluded and in which we shall stand with united hearts, for an America which no man can corrupt, no influence draw away from its ideals, no force divide against itself—a nation singly distinguished among all the nations of mankind for its clear, individual conception alike of its duties and its privileges, its obligations and its rights.

"In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.
"Done at the city of Washington this 30th day of May, in the year of our Lord, one thousand, nine hundred and sixteen, and of the independence of the United States of America, the one hundred and fortieth.
"By the president,
(Signed) "WOODROW WILSON."
(Seal) "ROBERT LANSING,"
"Secretary of State."

AUSTRIANS MAKE ANOTHER ATTACK

Rome Reports Violent Offensive in Posina Zone Fails—Germans Gain.

ROME, May 31, via Paris. The Austrians have resumed the offensive in the Posina zone and along the upper Asiatic in the southern Tyrol. They attacked the Italian positions south of the Posina after violent artillery preparations, but according to tonight's official statement from the war office, were unable to dislodge the defenders.

GERMANS MAKE GAIN ON FRONT OF TWO MILES

LONDON, May 31.—French positions on a front of approximately two miles, extending from the southern ridge of Le More Homme, to the Cumieres village, northwest of Verdun, have been captured by the Germans, according to the latest official communication from Berlin. In addition the Teutons again have

pressed forward in the Thiaumont wood, northeast of Verdun, and added to their line in the eastern part of it.

These gains, made during the vicious fighting of Monday, have been in part admitted by Paris, which has reported the loss of 300 meters of advanced trenches northwest of Cumieres, and the retirement from similar positions to the south of the road between Bethincourt and Cumieres. Berlin says the Germans captured 1,311 prisoners, including several staff officers.

Around Le Mort Homme and Cumieres a violent bombardment is still in progress, but there has been a diminution in the intensity of the fire of the big guns northeast of Verdun. Since the fighting of Monday, there apparently have been no infantry attacks anywhere on either side of the Meuse.

PLAN TO HANDLE G. O. P. CROWDS

Greatest Throng in History of Chicago is Expected at Coliseum.

CHICAGO, May 31.—How to handle the thousands of persons who each day will gather in the vicinity of the Coliseum while the republican national convention is in session is a problem that is causing city and convention officials some little worry.

They believe that the same methods that applied to previous conventions will not be sufficient this year, in view of the unprecedented interest in it, and the absolute certainty that the greatest crowd in history will flock to Chicago.

It is probably that the streets will be closed to traffic immediately surrounding the huge Coliseum, Chief of Police Healey and William F. Stone, sergeant-at-arms for the convention, are both in favor of such a plan.

Street car companies will be asked to route their Wabash av. cars

over on State st. If this plan finally is adopted the streets will be closed to all but those having proper credentials and the residents of the neighborhood.

Arrangements have been made for those arriving in automobiles to use a rear entrance. A vacant lot on Michigan av., directly across from the Coliseum, will be available for parking purposes.

One of the busiest Chicagoans today is Miss Jean Humes, a pretty dark-haired, dark-eyed girl, who is sewing 8,000 yards of hunting to be used in the decorations. She is a veritable Betsy Ross.

In a small rear room to the annex, Miss Humes has been busy for a week with her sewing. All day long she whistles and sings as she guides the long belts of cloth through her machine. In all, 22,000 yards of cloth will be used in decorating the great enclosure. The immense steel girders will be draped in white, and this immense canopy will be fanned with 4,000 yards of gold cloth. There will be 300 flags.

At the extreme south end of the building, directly behind the speakers' stand, there will be a life-sized portrait of Abraham Lincoln, draped with the coat of arms of the United States and American flags.

The work of getting the Coliseum ready is now in its final stages.
